

# COVID-19 DIGITAL RISK MONITORING APP

## Scan QR Code to Register Online

Easy registration process to create profile and begin

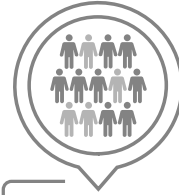

## Log In Remotely to Check-in Daily

Daily self-report of exposure, symptoms and temperature

## Probability Risk Assessment

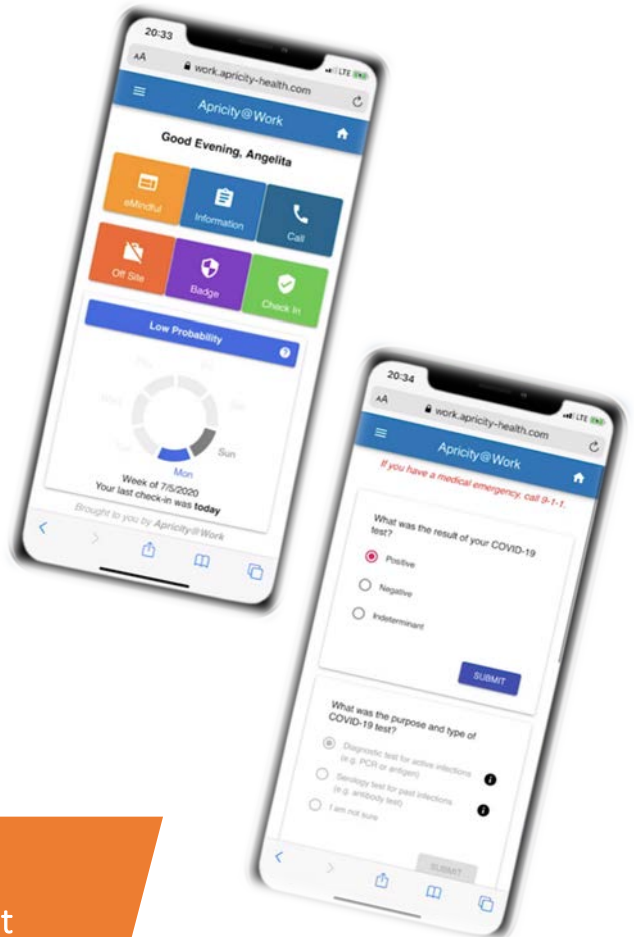

Holistic assessment of intrinsic (clinical) and extrinsic (activity) risks

## Real-time Data & Insights to Inform

Controlled access to detail and aggregate risk data for decisions

- 1 Employee visits website to register and consent to workday digital monitoring.
- 2 Employee submits daily symptom report and temperature check.
- 3 Employees receives real-time in-app clearance for work or referral for evaluation with QR Code that can be scanned to track employee access to worksite.
- 4 Employer dashboard identifies worksite "hotspots," actionable real-time view of employee population symptom status.
- 5 Opportunity to perform contact tracing within the workforce.
