

## **2021 Midwest Health Promotion Conference COVID HEALTH & SAFETY POLICY**

HealthSource Solutions & the Midwest Health Promotion Conference Planning Committee are committed to creating a safe environment for all conference attendees.

As wellbeing practitioners and leaders, please support and champion the following safe in-person gathering practices:

- All conference attendees will be asked to wear a mask.
- If you are unvaccinated, we highly recommend you choose to attend the virtual conference.
- Attendees agree to stay home and attend virtually if they are not feeling well.

### **Onsite Safety Measures**

- All sessions will be held in a large ballroom and tables will be reduced capacity to allow for adequate distancing.
- Grab & go breakfast and boxed lunches will be served.
- Hand sanitizing stations will be located throughout the venue.
- No water stations will be available due to safety guidelines – please plan to bring a water bottle.
- RiverCentre COVID-19 safety measures can be reviewed [here](#).

Due to the uncertainty of these times, guidelines may change to reflect the most current local and CDC health and safety standards at the time of the event. We will be in communication as we get closer to the event.

We appreciate your cooperation and understanding as we work to keep everyone safe, while sharing and supporting worksite health promotion ideas and trends.
