

The world's first digital clinic designed to help you conquer addiction in your organization.

Addiction is at crisis levels in the U.S.

- 11 million workers in America struggle with addiction
- Less than 8% of those workers seek treatment
- Over 1 in 4 remote workers reported going to work impaired by drugs or alcohol in 2020.
- Over 50% of those that experience mental illness also experience substance use disorder, and vice versa

Everyone deserves access to addiction treatment. Early intervention reduces your healthcare costs and saves lives.

Multiple addictions are common

70%

of workers with alcohol use disorder are also addicted to tobacco

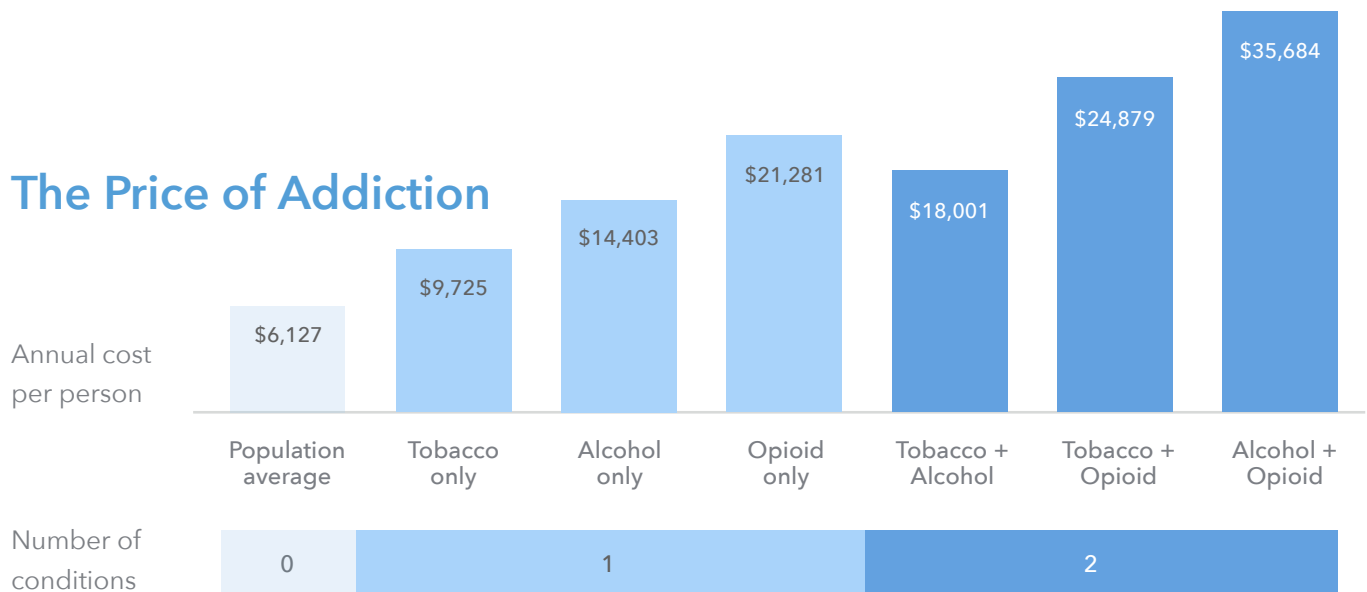

18%

of those with opioid use disorder are addicted to alcohol

22%

of tobacco smokers also have an opioid use disorder
